

## Experiencing any of these?

Then you could have a hard water issue!

Let Ultrefina take care of that for you.

## COLD FACT

- A person can survive 2 months without food, but only 3 days without water.
- Unsafe water kills more people each year than all forms of violence and war.
- 200 people die every hour from unsafe water-related diseases.
- PFAS found in most tap water increases cancer risk by up to 33%.
- PFAS in drinking water contributes to nearly 6864 new cancer cases annually
- 80% of the world's wastewater is dumped untreated back into the environment.
- A new study shows a spoon's worth of nanoplastics is found in the human brain.
- 240,000 ppm of micro-nano plastics were found in every litre of bottled water.
- Micro-nano plastics were already found 100% in the human placenta
- It takes 450 years for the plastics to decompose.

## SOFT WATER BENEFITS:

**50%** Cost savings on detergent, soap, shampoo, body lotion, moisturizer, cleaners and more.

**24%** In energy saving

**30%** More efficiency out of your water usage appliances and way less repair and replacement
